CERAMCO® 3
For crowns, bridges & veneers

If you're like most patients having restorative or cosmetic dentistry, you probably have two prerequisites.

You want to look good and you want your crown, bridge or veneer to last. That's why so many dental professionals rely on Ceramco®.

Ceramco® 3 is preferred by dental professionals because:

- The Ceramco® Crown has 40 years of reliability and clinical success.
- Beautiful esthetics: everything looks so natural.
- New ultra-white shades to match tooth color or desired brightness.
- Performance over time that you can trust.
- Ceramco® has Natural "Feldspar Porcelain." It polishes up bright and has excellent durability.

Before and After photos are worth 2,000 words!

BEFORE

AFTER

Dentistry and photography by Dr. David Little, San Antonio, TX. Ceramco® 3 Crowns on teeth #8 and #9.
